

Financial Resilience Audit

Clarity on financial resilience. Confidence in every decision.

How certain are we in our revenue, today and into the future?

What an audit makes clear

Revenue Concentration

Are we too reliant on a small group of donors?

What happens if one major donor steps back? A grant does not renew?

Revenue Stability

How consistent is revenue year over year?

Recurring Revenue

How much revenue is committed vs. re-earned each year?

How strong is our base of ongoing donors?

Donor Pipeline

Are we replacing the donors we're losing?

Is our donor base growing, flat, or declining?

Revenue Mix

Are we overly reliant on one type of funding?

How much is restricted vs. unrestricted?

The Outcome

What this changes: Moves conversations from 'Did we hit the target' to 'Where are we at risk and where are the opportunities?'

A shared understanding of financial resilience across board and leadership; grounded in data, not assumptions.

- Clear view of risk and opportunity
- Stronger alignment between board and leadership
- More confident, focused strategic decisions

Cost: \$4,750

See what matters. Then act on what's next.
